Jim:

I have talked with Jes and Joe. You will note the adjustment in Jes's salary.

Joe Pikiell feels strongly that he cannot accept less than a 13% increase. I believe it can be fully justified and since our whole move toward top-level management commitment to Development depends on this reorganization, I would appreciate your reconsideration.

Office of the President

September 16, 1980

TO: Dr. James A. Frost, Executive Director

FROM: F. Don James, President

Development in its broad sense is an area of Central that I have felt for some time needed much more attention and top management commitment in terms of responsibility and time allotment. As we have studied and discussed this need and our ability to meet what will be an ever-increasing necessity for our Colleges to actively request financial and programmatic support from private business and industry in the State, we have concluded that the following steps must be taken. I am recommending them to you and requesting that you present my recommendations to the Personnel Committee of the Board of Trustees.

1. Revise position of Dean of Student Affairs to encompass Development Function.
2. Dr. Richard L. Judd will continue to serve in this position but with primary responsibility for Development.
3. Reorganize the administrative structure of the College in order to serve the student needs in an effective and efficient manner. Attached is the organizational chart of Central that reflects my recommended changes.

In summary of these changes, the Office of Admissions would be placed directly under the Office of the President.

The Offices of the Registrar and Placement and Career Development would be placed under the Office of the Vice President for Academic Affairs.
