BOARD OF TRUSTEES  
FOR THE STATE COLLEGES

CENTRAL CONNECTICUT STATE COLLEGE  
New Britain, Connecticut 06050

Office of the President

July 27, 1981

TO: Dr. James A. Frost, Executive Director  
The Connecticut State Colleges

FROM: F. Don James, President  
Central Connecticut State College

This is to indicate that the Branson Sonic Power Company, Eagle Road, Danbury, Connecticut 06810, has donated to Central Connecticut State College for use in our Industrial Technology Program, an Ultrasonic Plastics Welding machine which is worth approximately \$8,000. This unit will allow us to teach an aspect of plastics manufacturing that heretofore we could not teach as a part of our laboratory specialization.

We are delighted that Mr. Stephen Gallagan, one of the professional employees of the Branson Sonic Power Company and one of our graduates recognized this need at Central and recommended to his company that this gift be made.

I would appreciate it if you would present this to the Planning Committee of the Board for their acceptance and acknowledgement to Mr. William Tyrrell, Director of Plastics Welding, Branson Sonic Power Company, of this gift.
