PURCHASING PROCEDURES

The purpose of this document is to provide procedures to implement the provisions of Sections 8, 33 and 35 of Public Act No. 91-256 regarding the purchase of all commodities, equipment, public safety and emergency vehicles and equipment, contractual services, printing, publishing, microfilming and lease of personal property.

1. Extent of Authority

- a) The Chief Executive Officer of the Connecticut State University System and the President of each State University and their respective designees shall have the authority to purchase goods and services or lease personal property in accordance with policies adopted by the Board of Trustees for the Connecticut State University system.
- b) Where the Department of Administrative Services has executed a State contract for the purchase of such goods and services, purchases may be made from contract vendors in accordance with terms and conditions of the contracts, provided that the use of a State contract is in the best interest of the University.

2. Bidding and Competition

- a) Competitive bidding is not required for any individual purchase of two thousand dollars (\$2,000) or less, or such other amount as set by statute. No purchase will be divided or sub-divided for the purpose of bringing such purchase within the limit prescribed. Each University's Director of Purchasing will retain the option to solicit competitive bids if it is in the best interests of the individual University.
- b) Except as provided in Section 3, purchases exceeding two thousand dollars (\$2,000) but less than or equal to ten thousand dollars (\$10,000) shall be made in the open market, but shall be based on at least three competitive bids whenever possible, except for non-competitive (sole source) commodities or in the case of a bona fide emergency.
- c) Except as provided in Section 3, purchases exceeding ten thousand dollars (\$10,000) but less than or equal to twenty-five thousand dollars (\$25,000) shall be made in the open market, but shall be based on at least three competitive bids whenever possible, except for non-competitive (sole source) commodities or in the case of a bona fide emergency. Each bid shall be kept sealed until opened publicly at the time stated in the notice soliciting such bid.

- d) Except as provided in Section 3, all purchases exceeding twenty-five thousand dollars (\$25,000) shall be solicited by advertisements placed in at least three (3) daily newspapers published in the state, at least ten (10) days prior to the closing date for bid submissions. A minimum of three (3) competitive bids are required whenever possible. Each bid shall be kept sealed until opened publicly at the time stated in the notice soliciting such bid.
- e) Competitive bidding is not required in the case of emergency purchases. However, such purchases should be based on at least three competitive quotations whenever possible (see Paragraph 4).
- f) Competitive bidding or quotations are not required when participating in an available state contract award which has already undergone competitive bidding by DAS or OIT.
- g) If the nature of the purchase precludes solicitation of competitive prices, the notation "non-competitive" shall be made on the agency's copy of the purchase order. If the reason for the non-competitive nature of the purchase is not self-evident, an explanation shall also be attached.

Examples may include purchases from another state agency or the Federal government, purchases from a publisher or exclusive distributor, advertising, dues, subscriptions, fees, and licenses.

- h) If the using department determines that the purchase should be made on a "sole source" (only one vendor can supply the required product or service), or "sole product" (only one brand or model can supply required needs), basis, the reasons must be based on clearly identified criteria documented in the purchasing file.
- i) All invitations to bid shall also be posted in a conspicuous location in each University Purchasing Department.
- j) Processing of purchasing orders:
 - (1) Vendor copy (white) of purchase orders will be mailed directly to the vendor by each University.
 - (2) Bureau of Purchases copy (blue) of purchase order will be retained by each University for use as a basis in determining University-wide contracts.
 - (3) Comptroller copy (pink) of purchase order will be mailed to Office of the Comptroller.

3. Negotiated Purchases - CGS Section 4a-52b

In lieu of soliciting competitive bids, nothing shall prohibit each University from purchasing supplies, materials, equipment, and contractual services through negotiation when all the following criteria are met:

- a) Such purchases have a cost of twenty thousand dollars (\$20,000) or less,
- b) such purchases are required to implement a grant, contract or financial agreement between the University and the donor wherein funds or other things of value are given with an obligation for service primarily to the donor by the University and,
- c) such supplies, materials, equipment, or contractual services are specified in such grant, contract or financial agreement.

4. Emergency Purchases

- a) Should an emergency exist "...by reason of extraordinary conditions or contingencies that could not reasonably be foreseen and guarded against, or because of unusual trade or market conditions,..." (P.A. No. 91-256) the University may, if it is in the best interest of the University, make purchases without competitive bidding. Emergency purchases may preclude the use of existing contracts if the contract vendor cannot meet the emergency delivery requirements.
- b) An "emergency" is further defined as a situation where the normal operation or portions thereof of an agency would cease or be seriously impaired if immediate action were not undertaken to correct the contingency.
- c) A written statement documenting the nature of all emergency purchases between two thousand dollars and one cent (\$2,000.01) and twenty-five thousand (\$25,000.00) shall be attached to the agency's file copy of the purchase order at the time the order is placed.
- d) Emergency purchases exceeding twenty-five thousand dollars (\$25,000.00) shall be in accordance with paragraph 6 below.
- e) All emergency purchases of a dollar value exceeding two thousand dollars (\$2,000) are subject to the reporting procedures outlined in paragraph 12 below.

5. Data Processing

- a) All data processing purchases such as hardware, software, maintenance and contractual services must conform to a Board of Trustees' approved five (5) year plan for the campus making the acquisition, and where relevant, shall be compatible with standards for computer architecture established by the Office of Information & Technology (OIT).

- b) Existing Board of Trustees' policies and resolutions concerning data processing must be followed.
- c) All data processing purchases exceeding \$25,000 must be approved by the Council of Vice Presidents for Finance and Administration. These purchases will be submitted to the CSU Information Systems Office for review by the Council on a form developed by the campus Directors of Purchasing.

6. Special Purchases Exceeding \$25,000

All emergency and non-competitive purchases greater than twenty-five thousand dollars (\$25,000) must be approved by the Council of Connecticut State University Vice Presidents for Finance and Administration. Such purchases must be accompanied by a justification and submitted to the Vice President for Finance and Management in the Executive Office. In an emergency, the Council may convene by telephone caucus. A Connecticut State University data processing representative shall be a participating member of the Council whenever data processing items are on the agenda.

7. Convenience Contracts

The Director of Purchasing of each University may approve establishment of contracts wherein the primary consideration is convenience rather than price. Criteria to be used in approving such contracts will include travel time, administrative cost savings, availability, and product application, e.g., emergency repairs versus routine maintenance.

8. Disqualified Vendors

- a) Pursuant to Connecticut General Statutes Section 4a-63, the University shall not issue purchase orders to, or enter into personal services agreements with any person, firm or corporation disqualified from doing business with the State by the Commissioner of Administrative Services provided each University is notified of said disqualifications in writing.
- b) Within CSU vendors may be disqualified for six months from date of disqualification for failure to comply with contract terms and conditions; such vendor's name will be communicated to the CSU Purchasing Flexibility Committee.

9. University Contracts

The CSU Purchasing Flexibility Committee may establish University contracts for frequently ordered goods and services. All purchases using University contracts shall be in accordance with the terms and conditions set forth therein. Coordination with other units of Higher Education for bulk price savings shall be encouraged.

10. Restricted Funds

No purchase orders shall be issued and no personal service agreements shall be entered into by the University if doing so would violate restrictions placed on funds by the funding source.

11. Nondiscrimination

All purchases made by the University under its own authority shall be in full compliance with current statutes regarding nondiscrimination. Standard terms and conditions related thereto, as set forth by the Department of Administrative Services/Bureau of Purchases and approved by the Attorney General, shall be incorporated into each request for quotation and purchase order issued by the University. Contract Compliance Regulations (Connecticut General Statutes Section 4-114a) and Set-Aside Program Regulations (Connecticut General Statutes Section 32-9e) will be followed by each University.

12. Reporting

The annual report of the President shall include a statement of all emergency purchases made under the provisions of paragraphs 4, 5 and 6.

13. Interpretation

Disputes regarding the interpretation of the relevant statutes or their applicability to any purchase may be resolved by the Attorney General if the individual University Vice President for Finance and Administration determines that he/she cannot render a decision.

7. Convenience Contracts

The Director of Purchasing of each University may approve establishment of contracts wherein the primary consideration is convenience rather than price. Criteria to be used in approving such contracts will include travel time, administrative cost savings, availability, and product application, e.g., emergency repairs versus routine maintenance.

8. Disqualified Vendors

- a. Pursuant to Connecticut General Statutes Section 4a-63, the University shall not issue purchase orders to, or enter into personal services agreements with any person, firm or corporation disqualified from doing business with the State by the Commissioner of Administrative Services provided each University is notified of said disqualifications in writing.
- b. Within CSU vendors may be disqualified for six months from date of disqualification for failure to comply with contract terms and conditions; such vendor's name will be communicated to the CSU Purchasing Flexibility Committee.

9. University Contracts

The CSU Purchasing Flexibility Committee may establish University contracts for frequently ordered goods and services. All purchases using University contracts shall be in accordance with the terms and conditions set forth therein. Coordination with other units of Higher Education for bulk price savings shall be encouraged.

10. Restricted Funds

No purchase orders shall be issued and no personal service agreements shall be entered into by the University if doing so would violate restrictions placed on funds by the funding source.
