

3.3 Asnuntuck Community College out-of state tuition pilot program

Beginning with the Fall 2016 semester, Asnuntuck Community College (ACC) may offer tuition and fee rates to Massachusetts residents that are consistent with those typically reserved for Connecticut residents. For a full-time (i.e. twelve credits or more) student beginning in Fall 2016, this entails a charge of \$4,168 for a full academic year. This eliminates for Massachusetts residents the planned out-of-state full-time rate of \$12,504 as well as the program-specific rate as offered through the New England Board of Higher Education, which is to total \$6,252 for a full-time student.

The FY 2017 rates of \$6,252 for NEBHE and \$12,504 for out-of-state students will continue to apply to non-Massachusetts residents during the pilot term of two full academic cycles.
